AUTHOR INDEX

A

Abramson, H. A., *see* Brown, E. A.
Ahlquist, R. P., the interaction of sympathomimetic pressor amines: inversion of the vonedrine pressor action by paredrine, 348
Anderson, R. C., and Chen, K. K., the colorimetric assay of digitoxin by the modified Raymond Method, 353

B

Bachman, G. B., *see* Wetzel, J. W.
Bandelin, F. J., and Kemp, C. R., the evaluation of various bases for sulfonamide ointments, 65
Barlow, O. W., *see* Hunt, W. H.
Bartels, B., *see* Holck, H. G. O.
Basu, N. K., and Pabrai, P. R., a chemical investigation of *Celastrus paniculata* Willd., 272
—— and Lamsal, P. P., a chemical investigation of *Sphaeranthus indicus* Linn., 274
Beal, G. D., *see* Waters, K. L.
Bell, F. K., and Krantz, J. C., Jr., digitalis. IV. The collaborative study of the assay of digitalis and its preparations by the chemical and cat methods, 260
Bergeim, O., *see* Woodson, H. W.
Blanchard, E. W., *see* Heinemann, B.
Bliss, C. I., a revised cylinder-plate assay for penicillin, 6
Brewer, J. H., a simple pipette washer for the average laboratory, 325
Brimi, R., *see* Levey, S.
Brown, D. J., *see* Seeberg, V. P.
Brown, E. A., Abramson, H. A., Gorin, M. H., Kauffmann, H. O., and Shanley, E. S., the stability of solutions of urea peroxide in glycerol, isopropanol, and ethylene glycol, 304
Buelow, D., *see* Gisvold, O.
Bundy, C. H., and Edman, W. W., investigations of the heavy metals test in the U. S. P. XII, 115
Burlage, H. M., and Hawkins, D. B., pharmaceutical applications of isopropyl alcohol. I. As a solvent in pharmaceutical manufacturing, 379
Busse, L. W., *see* Russell, J. C. H.
Butz, C., *see* Kuna, S.

Carlson, E. H., *see* Gisvold, O.
Carol, J., and Rotondaro, F. A., the determination of estrone in oil solutions of estrogens, 176
Chaikelis, A. S., the thiamine content of herbs and medicinal plants, 343
Chen, K. K., *see* Anderson, R. C.
Cheng, Y.-F., Christian, J. E., and Jenkins, G. L., the synthesis of chemotherapeutic agents. III. The synthesis of certain thio compounds, 334
Christian, J. E., *see* Cheng, Y.-F.; Neuroth, M. L.; Wetzel, J. W.
——, Jenkins, G. L., Keagle, L. C., and Crum, J. A., the synthesis of chemotherapeutic agents. I. The synthesis of certain thio and dithio compounds, 328
Ciminera, J. L., and Wilcox, P. W., stable ascorbic acid solution for parenteral use, 363
Collins, W. R., and Kirch, E. R., determination and stability of menadione, 215
Copley, D. M., effect of time and temperature in the preparation of certain fats and waxes for melting point determinations—report no. two, 78; report no. three, 84
Crum, J. A., *see* Christian, J. E.

D

Dietz, E. A., and Folkers, K., erythrina alkaloids. XV. A colorimetric determination of β-erythroidine, 48
Dillon, C. P., Estabrook, G. B., and Hartung, W. H., the influence of physiologically active compounds and their inactive homologs on phase boundary potentials, 250
Dodd, M. C., Hartmann, F. W., and Ward, W. C., surface-active agents as ointment bases, 33

E

Eble, T. E., *see* Mundell, M.
Edison, A. O., *see* Kuna, S.
Edman, W. W., *see* Bundy, C. H.
Edwards, L. D., *see* Haley, T. J.
Eisenberg, W. V., *see* Keenan, G. L.
Estabrook, G. B., *see* Dillon, C. P.

F

Farson, deC., *see* Iwamoto, H. K.
Fischbach, H., *see* Mundell, M.
Fischelis, R. P., a review of the present status of barbiturate regulation, 193
Fischer, L., *see* Miller, O. H.
Folkers, K., *see* Dietz, E. A.
Fosbinder, R. J., *see* Hunt, W. H.
Foster, C. P., *see* Hartung, W. H.

SUBJECT INDEX

A

Acetophenetidin, acetylsalicylic acid, and caffeine, the separation of, 71
2-Acetoxymercuri-4-diisobutylphenol, a new mercurial antiseptic, properties of, 54
Acetylsalicylic acid, acetophenetidin, and caffeine, the separation of, 71
1-Acyl-3-aminomethylureas, the analgesic properties of some, 28
Agar, the effect of, upon the germicidal efficiency of the quaternary ammonium salts, 317
Alcohol, the relationship between the preservative action of, and the solid content of the preparation, I. Studies in the preservation of liquid pharmaceutical preparations, 182
Aldehydes, a study of the determination of some official, 220
Alkaloids, erythrina. XV. A colorimetric determination of *β*-erythroidine, 48
isolation of, I. Alkaloids of species of Garrya, 204
Alkanes, the synthesis of some *alpha, omega*-bis-(3,4-dihydroxyphenyl), 188
Aluminum cholate, studies on the pharmacology of, 213
Amino alcohols. XV. *p*-Aminopropadrine, 15; XVII. Arylethanolamines, 306
Aminomethylureas, analgesic properties of some 1-acyl-3-, 28
***p*-Aminophenylalanine,** a synthesis of, 18
***p*-Aminopropadrine,** XV. Aminoalcohols, 15
Ammonium salts, quaternary, the effect of agar upon the germicidal efficiency of the, 317
Analgesic properties of some 1-acyl-3-aminomethylureas, 28
Anesthesia, pentobarbital sodium, in the Syrian hamster, 263
Anesthetic, effect of the, and the rate of injection of digitalis upon its lethal dose in cats, 366
effects and toxicities of some new barbituric acid derivatives administered to mice and rats, I, 231; II. Administered to rabbits, 244
properties, local, of isonipecaine, studies on the, 44
Antibiotic agent, the status of tyrothricin as an, for topical application, 141
Antibiotic substances, methods of testing, and limitations involved, 102
Antipyretics, the evaluation of, against pyrogen-induced fever, 257
Antiseptic, properties of a new mercurial, 2-acetoxymercuri-4-diisobutylphenol, 54
Apparatus for tablet disintegration and for shaking-out extractions, 284
Arylethanolamines, XVII. Amino alcohols, 306
Ascorbic acid solution, stable, for parenteral use, 363

B

Barbiturate regulation, a review of the present status of, 193
Barbituric acid derivatives, the anesthetic effects and toxicities of some new, administered to mice and rats, I, 231; II. Administered to rabbits, 244
Bentonite and zinc oxide, determination of, in calamine lotion, 174
Bile flow, in rats, the toxicity of sodium 3,12-dihydroxy-7 cholanate and its influence on, 296

Surface Active Agents, 187
Textbook of Pharmacognosy, 320
Vitamins and Hormones, 160
Burns, hydrophilic acid ointments for the debridement of, 275

C

Caffeine, acetophenetidin, and acetylsalicylic acid, the separation of, 71
as a common ingredient, the assay of medicinal compounds having, 97
the extraction of, from pharmaceutical preparations, 313
notes on the water content of crystalline, 12
Calamine lotion, determination of zinc oxide and bentonite in, 174
Cardiac effects, some, of isonipecaine (demerol), 113
Celastrus paniculata Willd., a chemical investigation of, 272
Chemical assay of penicillin, 373
Chemical investigation of *Celastrus paniculata* Willd., 272
of *Sphaeranthus indicus* Linn., 274
Chemotherapeutic agents, the synthesis of. I. The synthesis of certain thio and dithio compounds, 328; II. The synthesis of certain thio and dithio compounds, 331; III. The synthesis of certain thio compounds, 334
Cholanate, sodium 3,12-dihydroxy-7, the toxicity of, and its influence on bile flow in rats, 296
Cholate, aluminum, studies on the pharmacology of, 213
Cholic acid, desoxycholic-, dehydrocholic-, and dehydrodesoxycholic acids, action of, on body temperature in rabbits, 73
Choline chloride, an assay for, in pharmaceutical products, 311
Colaminoformylmethylpyridinium chloride (emulsept), the effect of continued oral administration of lauric and myristic acid ester of, to the albino rat, 169
Colorimetric assay of digitoxin by the modified Raymond method, 353
Creams and ointments, penicillin, a study of, 321

D

Datura stramonium and *Datura tatula*, comparative analyses of normal and tetraploid, 23
Dehydrocholic acid, cholic-, desoxycholic-, and dehydrodesoxycholic acids, action of, on body temperature in rabbits, 73
(Demerol) isonipecaine, some cardiac effects of, 113
the microscopic identification of, 338
Desoxycholic acid, cholic-, dehydrocholic-, and dehydrodesoxycholic acids, action of, on body temperature in rabbits, 73
Digitalis. IV. The collaborative study of the assay of digitalis and its preparations by the chemical and cat methods, 260
effect of the anesthetic and the rate of injection of, upon its lethal dose in cats, 366
Digitoxin, colorimetric assay of, by the modified Raymond method, 353
***alpha, omega*-bis-(3,4-Dihydroxyphenyl) alkanes,** the synthesis of some, 188
Dihydroxypropyl theophylline: its preparation and pharmacological and clinical study, 266
Dithio and thio compounds, the synthesis of certain, I and II. The synthesis of chemotherapeutic agents, 328, 331
Drop-counter for saline solutions, 53
Drugs, the influence of vehicles on the action of, 161

E

(Emulsept) colaminoformylmethylpyridinium chloride, the effect of continued oral administration of lauric- and myristic acid ester of, to the albino rat, 169
Emulsified ointment bases, diffusion of sulfonamides from, 129
Emulsions, mineral oil, the determination of phenolphthalein in, 158
Enzyme theory of pharmacology, some modern contributions to the, I
Ephedrine, stability of penicillin in solutions of, 326
Erythrina alkaloids. XV. A colorimetric determination of *β*-erythroidine, 48
***β*-Erythroidine,** a colorimetric determination of, XV. Erythrina alkaloids, 48
Estrogens, the determination of estrone in oil solutions of, 176
Estrone, the determination of, in oil solutions of estrogens, 176
Ethanolamines, aryl, XVII. Amino alcohols, 306

F

Fats and waxes, effect of time and temperature in the preparatiin of certain, for melting point determinations—report no. two, 78; report no. three, 84
Fertilizers, the influence of, on the growth and alkaloidal content of *Hyoscyamus niger* Linn., 121
Fumaric acid, a study to determine the toxicity of, 298

G

Garrya, the alkaloids of species of. I. Isolation of alkaloids, 204
Germicidal efficiency of the quaternary ammonium salts, the effect of agar upon the, 317
Glycolanilide, a contribution to the chemistry and pharmacology of, 50

H

Heavy metals test in the U. S. P. XII, investigations of the, 115
Herbs and medicinal plants, thiamine content of, 343
Hydrophilic acid ointments for the debridement of burns, 275
***β*-Hydroxy and *β*-halo ethyl 3- and 4-nitro phthalimides,** 42
Hydroxymercuribenzoates, sodium, a chemical study of two isomeric, 179
Hyoscyamus niger Linn., the influence of fertilizers on the growth and alkaloidal content of, 121

I

Indian rhubarb, studies on. II. *Rheum emodi*, 148
Insulin, studies on the cutaneous absorption of, 217
Isonipecaine (demerol), some cardiac effects of, 113
studies on the local anesthetic properties of, 44
Isopropyl alcohol, pharmaceutical applications of. I. As a solvent in pharmaceutical manufacturing, 379

K

Kalmia latifolia L., Alabama's "sheep kill" laurel—a preliminary study, 340

L

Lauric- and myristic acid ester of colaminoformylmethylpyridinium chlo-

ride, (emulsept) the effect of continued oral administration of, to the albino rat, 169
Liquid pharmaceutical preparations, studies in the preservation of. I. The relationship between the preservative action of alcohol and the solid content of the preparation, 182

M

Magnesium, determination of, in magnesium sulfate and solution of magnesium citrate, 19
Magnesium citrate, solution of, and magnesium sulfate, determination of magnesium in, 19
Magnesium sulfate and solution of magnesium citrate, determination of magnesium in, 19
Malaria, evaluation of totaquine in treatment of, in an endemic malarious area, 337
Medicinal plants and herbs, thiamine content of, 343
Melting point determinations, effect of time and temperature in the preparation of certain fats and waxes for—report no. two, 78; report no. three, 84
Melting point reference standards, U. S. P., 56
Menadione, determinatiin and stability of, 215
l-**Menthol,** separation of, from racemic menthol U. S. P., 121
Mercurial antiseptic, properties of a new, 2-acetoxymercuri-4-diisobutylphenol, 54
Microbiological assay of riboflavin, a study of the, 253
Microscopic identification of N. F. VII crystalline substances, tables for the, 94
Mineral oil emulsions, the determination of phenolphthalein in, 158
Mineral oils, peroxide test for, 76
Myristic- and lauric acid ester of colaminoformylmethylpyridinium chloride, (emulsept) the effect of continued oral administration of, to the albino rat, 169
Myristyl-gamma-picolinium chloride, the toxicity of, 89

N

N. F. VII crystalline substances, tables for the microscopic identification of, 94
Nitro phthalimides, 3- and 4-, β-hydroxy and β-halo ethyl, 42

O

Ointment bases, emulsified, diffusion of sulfonamides from, 129
surface-active agents as, 33
Ointments and creams, penicillin, a study of, 321
hydrophilic acid, for the debridement of burns, 275
sulfonamide, the evaluation of various bases for, 65

P

Paredrine, inversion of the vonedrine pressor action by: the interaction of sympathomimetic pressor amines, 348
Penicillin, the chemical assay of, 373
the gastrointestinal absorption and destruction of, 280
ointments and creams, a study of, 321
persistence of, in saliva after local oral application, 346
a revised cylinder-plate assay for, 6
stability of, in solutions of ephedrine, 326
Pentobarbital sodium anesthesia in the Syrian hamster, 263
Peroxide test for mineral oils, 76
Pharmaceutical preparations, liquid, studies in the preservation of. I. The relationship between the preservative action of alcohol and the solid content of the preparation, 182
Phase boundary potentials, the influence of physiologically active compounds and their inactive homologs on, 250
Phenolphthalein, the determination of, in mineral oil emulsions, 158
Pipette washer, a simple, for the average laboratory, 325
